

We Are Here

Inspirational Women museum trail

The **We Are Here: Inspirational Women trail** was created by the community-led **Exchange Steering Group**, consisting of community activists, researchers and museum staff.

Discover 16 inspirational women's stories around the museum in the galleries Newcastle Story, Working Lives and Tyneside Challenge.

Find out about these women who enrich our north east communities in the fields of medicine, healthcare, science, academia and activism.

Exchange was a community-led, collaborative research project funded in 2022 by the Arts and Humanities Research Council and led by National Museums Scotland and the National Maritime Museum.
