## Shipleigh Art Gallery

### Ground Floor

### Basement

- We often host events which may make the space brighter or darker or noisier.
- 🔊 There is a grand piano in Gallery B and a grandfather clock in Gallery A. Both of these can be heard throughout the gallery when producing sound.
- 🔊 The door in Gallery D that leads to the Workshop makes a loud noise when it shuts. This can be a sudden loud noise.
- The workshop in the basement level is only open for group activities.
