Check photos before you upload!

The screenshot shows the MammalWeb.org website interface. The top navigation bar is dark green with white text for 'HOME', '? ABOUT', 'Q. SPOTTER', 'TRAPPER', 'LOGOUT', 'LEARN', and 'NEWS'. The 'TRAPPER' link is circled in green, with a green arrow pointing down to it from the text above. Below the navigation bar is the 'Camera sites' section, which contains a table with several columns circled in green. The table has the following headers: 'Site Name', 'OS reference', 'Project name', 'Camera type', 'Camera status', 'Can you/the camera be used?', 'Project name', 'Photos uploaded', 'Project name', 'Upload', and 'Edit'. The first row of data shows 'Mammal Web UK' in the 'Project name' column and 'Upload' in the 'Upload' column. Below the table is a light blue box with the text: 'Please take care when entering site details. Most cannot be amended once photos are uploaded. If you need to make a change please contact us on info@mammalweb.org.' At the bottom left, there is a dark green button with a white plus sign and the text 'Add site'.

Site Name	OS reference	Project name	Camera type	Camera status	Can you/the camera be used?	Project name	Photos uploaded	Project name	Upload	Edit

Learn about MammalWeb

Here is where you can learn about the MammalWeb project and how you can get involved! Whether you want to be a spotter, a trapper or both the links below will provide you with guides on how to do this. Here is also where you can learn about some of the common animals that show up in camera trap photos so you know what to look out for. Finally, if you wish to buy your own camera trap, we've put together some helpful links to get you started with choosing the right model for you.
