Pop-up Fort

Segedunum Roman Fort lay at the eastern end of Hadrian's Wall. The fort was occupied for around 300 years by a cohort of 480 infantry and 120 cavalry soldiers.

Why not have a go at creating your very own pop-up Segedunum Roman fort scene?

All you need to do is:

1. Colour in and cut out the template on the other side
2. Fold tabs and stick your template onto some card

You could also have a go at creating your own 3D version of the fort (using our fort from inside the Roman Gallery as inspiration).

Visit our website to find out more information about the fort and also to find more family activities to get involved in: **segedunumromanfort.org.uk/family-learning-activities** and **segedunumromanfort.org.uk/marvellous-mondays**

Remember to share your creations with us. Tag us on Twitter at **@SegedunumFort**, use the **#Seggyathome** hashtag, or post them on our Facebook page.
