

Woodhorn Wild Trail

Follow this family friendly Wild Trail around the museum grounds to discover the animals and plants living here at Woodhorn.

See if you can hunt out the five outdoor wildlife posts on this map.

Pick your favourite animal, wildflower, insect, tree or bird from each post to create your own unique brass-rubbing artwork on the back of this sheet.

DID YOU KNOW ?

There are solar panels on the roof of the Cutter building at Woodhorn, which contribute to the running of the main heating system.

WORKSHOP GALLERIES

STABLES

CAGE SHOP

DID YOU KNOW ?

Woodhorn is home to many mammals, birds and plants. As you explore keep your eyes peeled - you might spot some wild things!

MEMORIAL

DID YOU KNOW ?

There is a rainwater harvesting system at Woodhorn, which collects the water to flush our toilets.
